

# Fiber blowing line for the automotive industry

**Project management:**  
GS-Anlagenbau

**Project duration:**  
around 4 months from  
initial planning to commissioning

**Materials produced:**  
carpet insulation

**Technical specifications:**  
- working width: 2,000 mm  
- cycle time: 60 sec

**Special features:**  
- material saving  
- almost no wastage  
- new prospects for  
manufacturing complex molded  
parts cost effectively
